

AMCHAM'S ESG COMMITTEE

The AmCham Vietnam ESG Committee was formed in September 2020 to act as a forum for the education and exchange of ideas on current issues affecting AmCham members in the realms of ESG (Environment, Society, and Governance) and corporate sustainability.

The ESG Committee focuses its activities on:

- Raising awareness on ESG criteria and sustainability issues and best practices in Vietnam among AmCham member companies as well as the larger Vietnamese business community;
- Connecting committee members to promote the active exchange of information and experience;
- Promoting policy advocacy, e.g., to align Vietnam's ESG standards with its sustainable development goals and other global standards;
- Networking with other chambers of commerce and professional associations regarding issues of ESG and sustainability;
- Promoting sustainability and corporate governance to support best practice among AmCham members and Vietnamese companies that export to the U.S.

ESG Committee's Leadership Team
